TRADITIONAL
GAS FIREPLACES

Why choose Regency?

Beautiful Home Heating Solutions

Regency Fireplace Products was founded over 35 years ago with a mission to produce the finest fireplace products available anywhere. Regency has heating solutions for every room in your home. Listening to our customers has enabled us to become the premium brand in the market today.

Regency Quality

The Regency name means quality in every way. The product is created and built in a world class manufacturing facility focused on getting every detail just right. Represented across North America by a carefully selected professional retail network, you can rely on knowledgeable dealers and installers who understand how to make our products run safely and to the optimum performance.

Exceptional Fire

The essence of each and every Regency fireplace is the unique flame. Without question, it's the best in the industry. With its dancing flames and glowing embers, the Regency fire looks just like a wood fire.

Custom Styling

By researching current trends and styles we have created tasteful options and accessories that allow you to tailor the look of our fireplace to your home. Sleek and simple or grand and glamorous... your choice.

Lifetime Warranty

I am so confident in the quality workmanship, the finest materials and durable heavy-duty construction invested in each and every product, that I offer a Limited Lifetime Warranty. The Regency warranty is the best in the industry. I am absolutely sure that you will be as proud of your Regency Gas Fireplace as I am – I guarantee it.

Robert Little
Founder & CEO

Liberty L965E shown with castlestone brick panels and integrated safety screen.

Elegant Style, Controllable Heat

Creating an elegant focal point is easy with the Regency Liberty® L965E. This clean face fireplace keeps the focus on the fire with one of the largest viewing areas available in the Regency line. The L965E permits finish materials to be installed to the edges for a pure, unadorned appearance. An adjustable burner system allows the flame to be controlled for mood and comfort from a roaring fire to a gentle glow all from the convenience of a hand-held remote control.

Specifications	Natural Gas	Propane

Bellavista® Large Gas Fireplaces

B41XTCE & B41XTE

Bellavista B41XTCE shown with old town red brick panels and integrated safety screen.

Expansive viewing area

With its impressive viewing area and artistic fire presentation, the Bellavista® creates beautiful gathering spaces. The B41XTCE offers a flush face design for a frameless display, while the B41XTE offers a range of trim finishes to suit any environment. Platinum embers and finely detailed logs molded from real wood create a truly authentic fire experience. With 42,500 BTUs of controllable heat, the Bellavista is an efficient direct vent fireplace perfect for medium to large living spaces.

Bellavista® Medium Gas Fireplaces

B36XTCE & B36XTE

Bellavista B36XTCE shown with rustic brown brick panels and integrated safety screen.

Bold flames

Bellavista means beautiful view in Italian. This is a perfect description of the fire view from the most popular sized fireplaces in the Regency line up. The B36XTCE and B36XTE models feature a bold flame and log package behind a 641 square inch viewing area providing up to 31,000 BTU of comforting heat. The quality workmanship is evident in the fine finishes, custom accessories and high safety ceramic glass.

Panorama® Small Gas Fireplaces

P33CE/P33E/P33

Panorama® P33CE shown with rustic brown brick panels and integrated safety screen.

Compact design

True flush finishing provides an unobstructed view of the fire in Regency's new Panorama™ P33CE gas fireplace. As a focal point in small to medium-sized spaces, the P33CE embodies the complete fireplace experience with a ceramic log set and glowing embers. Measuring just 12-3/4 inches in depth, the slim design of the P33 offers tall style in a compact size with all the features of the Panorama collection and just the right amount of heat output.

Clock		-	✓
Temperature display	°F / °C	✓	✓
Thermostat	one setting (very day)	✓	✓
	5-day day weekday & 2-day weekend	-	✓
Smart thermostat*		✓	-
Flame adjustment	(6 levels)	✓	-
Fan control**	(6 levels)	✓	-
Accent light (On/Off)***		✓	-

* Smart Thermostat - Rather than a thermostat that simply turns your fireplace on and off, the Smart Control function allows you to set your desired room temperature. As the room reaches your personal setting the flame intensity and heat will gradually decrease – keeping the ambience of your Regency fire on with less heat output with the option to turn off at any time.

** For models that have a blower.

*** For models that have an optional accent light.

No Chimney? No Problem!

Direct Vent Technology allows you to add a fireplace to rooms with no existing chimney. Simply vent your fireplace through an outside wall and finish it with the patented Regency AstroCap Flex Venting System. Maintain your indoor air quality by drawing fresh combustion air from outside through the venting system in to a sealed firebox. The exhaust is returned outdoors without affecting your indoor air. Direct Vent Technology is crucial in maintaining both high efficiency and indoor air quality.

Spread the warmth

Zone Heating with Regency

By adding a fireplace to your most frequently used living space you're not wasting energy by heating rooms you don't use.

Heat Adjacent Rooms with the Heat Wave™ Power Duct System

Cut down on your heating costs using a Heat Wave kit. The Heat Wave system attaches onto most Regency gas fireplaces allowing you to direct heat into rooms up to 20 feet away. This kit comes complete with vent, variable speed blower (for HeatWave system only) and vent register.

HeatWave Power Duct System

Maximizing Comfort and Efficiency

Regency Fireplaces deliver controllable heating solutions by combining the latest in radiant/convection heat technology and innovative features.

- ✓ Adjustable flame/heat control
- ✓ Heat radiating ceramic glass
- ✓ **SureFire Electronic Ignition** switch with battery backup features a fuel saving intermittent pilot ignition conserving energy when not in use.
- ✓ **Power's Out, Heat's On.** All Regency gas fireplaces operate without electricity. Enjoy peace of mind all winter long.
- ✓ Variable speed blower to maximize efficiency. Our quiet blowers increase the efficiency of your fireplace by pushing the heat produced by your fireplace forward and distributing it further and evenly into the room.
- ✓ Proflame GTMF Remote Control. A standard feature included with all Traditional Gas Fireplaces, this user friendly programmable remote can be set to start your Regency fire at your desired room temperature and be easily adjusted with the touch of a button.

Regency Gas Manuals

For installation, framing and clearances see manuals on website
www.regency-fire.com

All products tested to the following standards: GRAVITY DIRECT VENT WALL FURNACE TESTED AND APPROVED FOR U.S.A AND CANADA TO: CAN/CGA-2.17-M91, (ANSI Z21.88b-1999/CSA 2.33b-M99).

NOTE: All product specifications are subject to change without notice. Before installing refer to the relevant product manual for full and up to date information.

Fireplace planning made simple

Your Regency® matches your home and lifestyle perfectly. How do we know that? Because you designed it yourself!

www.regency-fire.com

1

CLICK!

Take a photo of your desired room location.

2

DESIGN

Go to www.regency-fire.com and design your perfect fireplace with the Fireplace Design Center.

3

VISUALIZE

Upload your room photo and see how the fireplace will look in your own home.

4

VISIT A REGENCY DEALER

Show your plan to one of our sales associates for expert advice. Your authorized Regency dealer will advise you on all the technical aspects and install your Regency.

5

NO CHIMNEY? NO PROBLEM!

Direct vent technology means you no longer need an expensive, elaborate chimney. Simply vent your fireplace through an outside wall and finish it with an AstroCap™.

6

ENJOY!
